**Subject:** FW: Discussion for Monday meeting with DOGGR  
Internal Deliberative.docx  
Capture Zone and buffer zone Q and A 8-28-14.docx

Mike,

Michele provided two attachments for internal consideration/preparation for our meeting Monday. The first is a list of issues/concerns about the package DOGGR submitted. The second is a brief Q&A that we got from Alexa (may have been developed by OGC) about "current use" of an aquifer. Let me know if you have any questions about either doc. Thanks,  
David
